

# Scavenger Hunt Day 1

## 1<sup>st</sup>-3<sup>rd</sup> Grade

***We are taking a trip to Paris France and we hope to visit some nice places. Use your computer or phone to get the answers for the clues below. Place the answer to each question on your Card.***

1. Our first stop was to visit a big tower in Paris. Clue Box #1: Find how long it took to build the Tower (add the years, months and days) and put the total of these digits in Box #1). For example, if it took 5 years, 6 months and 2 days then you would add  $5+6+2=13$ .
2. Clue Box #2: Take the number from your first answer in Box #1 and multiply by 3 then subtract 1. Put this answer into Box #2.
3. We want to climb up the steps to the top of the Big Tower. How many steps will we have to take? Put your answer in Box #3.
4. We will visit the biggest museum in the world. Find how many pictures are hanging on the walls. Put this answer in Box #4.
5. In the museum, there is a Glass Pyramid that is really high. Find how high it is and put the answer in Box #5.
6. We will visit a famous place full of restaurants and shops. It has 2 names put together. The first begins with a "C" and the second begins with an "E". Find out how wide this place is and put your answer in box #6.
